Plans, all those intricate plans,  
Left like gloves on the railings,  
Slipping through your hands.  
Clouds, those impossible clouds  
Are gathering now.

Soar like a love song  
That stutters, life-long  
Unsung

Soar like a swallow,  
That circles life-long  
Unsung

And it's all in your head,  
And it's all in your head,  
And it's all,  
Slipping through your hands

Soar like a love song  
That stutters all life-long  
And life is  
Your love song unsung

Soar like a love song,  
Yes life is  
Your love song unsung

And it's all in your head  
And it's all in your head  
And it's...

Soar like a love song  
That stutters all life-long  
Yes, life is  
Your love song unsung.
