My best friend I love her till the very end  
She's wonderfull she's beautiful  
She's super cool you know she's cool  
She's all that I adore

And when I think I can't take anymore  
She stops me at my door and says  
Can I see you smile pretty pretty please  
It's all I ever need It's all I seem to need  
Cause if you smile you know it will make me laugh  
And you know you can't resist that  
Cause we need each other  
And God he knows it's true and deep Inside of you  
You know I love you

My Bestfriend I love her till the very end  
She's off the wall she's got it all  
She's super fine you know she's fine  
She's all that I adore  
How could I not adore

The Times I think I can't take anymore  
She stops me at my door and says  
Can I see you smile pretty pretty please  
It's all I ever need It's all I seem to need  
Cause if you smile you know it will make me laugh  
And you know you can't resist that  
Cause we need each other  
And God he knows it's true and deep Inside of you  
You know I love you ooooooooooooooooooh

I love my best friend  
I love her till the very end

She's my best friend!
