At a moment like this
How well do we know each other?
The truth of it is
That we should be closer together.
And all the time
I was thinking what happened to us
You use to talk, and would try and work things out
And everybody that knew us
Said we went together, they never had a Doubt.

Though I'll have to say goodbye, for the summer
Yes, its gonna be a cold lonely summer
I don't want to say goodbye for the summer
Knowing the thoughts I will miss
Let us make a pledge, to meet in September
And seal it with a kiss
I don't want to say goodbye for the summer.

You give me one good reason to hate me and my
songs
I'll give you ten good reasons why you are so wrong.

Girls will come and go
But you're the one I wanna know
When you said that
You'll be leaving
I didn't try and talk you down
In my mind there was confusion
'Cos you know, I can be around'

Though I'll have to say goodbye, for the summer
Yes, its gonna be a cold lonely summer
I don't want to say goodbye for the summer
Knowing the thoughts I will miss
Oh, let us make a pledge, to meet in September
And seal it with a kiss
I don't want to say goodbye for the summer.
