Everywhere Si Goes

Everywhere Si goes
he always takes his bag round with him
everywhere he goes
he always has his bag on
everywhere Si goes
he always takes his bag round with him
everywhere he goes he always takes his
his bag round with him

He's walking round the college with his bag on
at 15min past lesson time
and then when we're going out for some lunch
he always has his bag on his back
this is the boy, the one so strange
he's being Simon, and that's the truth
of this boy (they say that)
Simon Eisner, and his bag of wonders,
couldn't conquer the first year

Everywhere Si goes
he always takes his bag round with him
everywhere he goes
he always has his bag on
everywhere Si goes
he always takes his bag round with him
everywhere he goes he always takes his
his bag round with him
