before you make decisions
holding back on this forever
grinding clubbing with a rapist
my only crime is my silence
cant work it out anymore
don't think I want to be at home
trying hard from all these families
your never far from that man

isithim isithim that you chose over me
isithim isithim that you chose over me
cant think, wont think
don't care, wont care

the teacher said it was so gimical
you told her that it must be criminal
so what was I doing wrong
or more to the point what was he doing right
eyes of tears that came in front of me
bringing down the fellers of the Tyne
sleep and dream about any sh*t
and have the rest see it
lethemse lethemse lethemse

isithim isithim that you chose over me
isithim isithim that you chose over me
isithim isithim that you chose over me
isithim isithim that you chose over me
take the p's out of pimp
and you get im

letmese, lethemse, letmese, lethemse

isithim isithim that you chose over me
isithim isithim that you chose over me
isithim isithim that you chose over me
isithim isithim that you chose over me
take the g out of sing
and you've got sin.
