Just one choice
Living in darkness
All it takes is one choice
Living on, but don't see whats on my mind
And when I look around
I'll find there is more than one choice
Living in darkness
Joining with this one choice
Each and everyone of us
Will notice something different
And believing every single one of us
Only one choice Â...
(will start it on its own)
This is one choice, and that same voice
Will never be alone, it takes that one choice

Hmm Hmm Hmm

Just one choice
Living in darkness
All it takes is one choice
And let it be
Just one choice
that's all it takes
And this voice everyone will see
Â'One ChoiceÂ'
(we will seeÂ....)
