Things got weird
Like a thing they cant explain
Like a vision of something strange
A note that brings you fear

Do you even love me a lot
Inside I feel like I rot
Setting sail far away in a yacht

Save the future
Save my future

Things went weird
You even almost grew a beard
Starting getting visions pf Britney Spears
And im shaking at the knees

Did you even fancy me
You hardly showed affection to me
Why got trouble to see
That you seem not to be in love with me

Save the future
Save my future

Save the future
Save my future
