Baby it's been a long day wanna shut it down
Take the highway to your side of town
But lately it's been so crazy with out you around
Don't hate me for wantin to hold you right now
And I know we said we're no good for each other

But can I come over for just a little while
Don't wanna be alone baby not tonight
I know we said the last time would be the last time
Then we'd let it end but I need to feel the way it felt
When it was good before it went to hell
And baby right now I really need your shoulder
Can I come over

I'm glad you picked up don't hang up
Have you thought at all about us since I've been gone
Oh I won't lie baby I have tried to move on
Well She was alright but it was all wrong
Why can't we just push aside good bye for one more
night

Can I come over for just a little while
Don't want to be alone baby not tonight
I know we said the last time would be the last time
Then we'd let it end but I need to feel the way it felt
When it was good before it went to hell
And baby right now I really need your shoulder
Can I come over

Oh I need to feel the way it felt when it was good before
It went to hell and baby right now I really need your
shoulder
Can I come over
Ahh yeah
Can I come over
Mmmmhhh
Can I come over
