We don't climb water towers to confess our love like we used to,
We don't break beer bottles on city limit signs like we used to,
We don't love 'em then leave 'em call 'em back when we've been drinking,
Don't have a black book to go through like we used, to like we used to,

Chorus:

Yeah we'd run around like our days were numbered,
Chasin good times livin for the summer,
Man I'd love to sit down and have us a beer or two,
Like we used to,

We don't sneak into bars with fake ID's like we used to,
And nobody raises hell and keeps the sheriff on his toes like we used to,
We don't light 'em up scream and cuss, bumper deep in the mud,
See what our old trucks'll go through,
Like we used to,
Like we used to,

Chorus

We don't wear our high school jackets with pride like we used to,
We don't sit up on the hood and dream of something better like we used to,
Like we used to,
Like we used to,

Chorus 2x

Like we used to,
Like we used to,
Like we used to,
We don't climb water towers to confess our love like we used to
