daylight, did you ever get through?
you were my first child
I'm so proud of you too
come here for a while
get out of the zoo
there's so many of us wild
but you wanted it too

I always knew

its a lovers course
a new sensation
it set you up
and it sweeps the nation

I want my first try
I just wanted some truth
so many of us lie
and it had to be you
stay here for a while
I'm so outta my shoes
so many of us wild
but you wanted it too.
I always knew
