Damn this place a fucking cage  
Damn another wasted day  
At their desks like fucking dummies  
Making other people money  
Can't care less what they say  
I'll burn this fucker down one day  
I hope this place burns to the fucking ground  
With their ugly suits and cars in tow  
I pray these fucking people die  
With their bullshit lives and their bullshit smiles  
Run like rats caught in a maze  
While to a desk I sit here chained  
If I last another day  
I'll blow out my fucking brains

Another day another dollar  
And I'll fucking sit here while my brain rots farther  
But I have to play this game to pay my fucking car bill
