Understand  
It's for the sake  
Of every man  
That I must take  
This whole world back  
To make things right  
I will attack  
I came to fight

I will rise a generation up to be my soldiers  
I will tie my heart to yours put my head on your  
shoulders  
Make your escape from life with Adonai  
Everything in life depends on Adonai

Natural disasters will keep coming but don't worry  
My people don't live in fear of death that's how you  
should be  
Make your escape from life with Adonai  
Everything in life depends on Adonai  
Lift all your worries up to Adonai  
You will all stop hurting come to Adonai  
Leave me alone now  
I'm not from here  
My home's in Heaven  
Leave me alone  
Rise  
Rise up Adonai

Let your worries rest on Adonai  
Life is just a test from Adonai  
Make your escape from life with Adonai  
Everything in life depends on Adonai  
Lift all your worries up to Adonai  
You will all stop hurting come to Adonai
