I thought i could touch the stars
I lie alone at night
I don't know where you are
my face explodes
teardrops into tears
and every second I'm not with you
well it seems like years.

I've told you
how I love you
and need you
will kill you
yeah, yeah

I won't die

but I don't feel the same
I lie awake at night
hoping to see you again
my face explodes
teardrops into tears
and every moment I'm not with you
well it seems like years.

I love you
I need you
yeah, yeah
and I told you
that I'd kill you
yeah, yeah
