Before the night is through  
I'm not sure what I'll do  
Will I ask you for a dance  
Before the night is gone will I leave this town  
Without the sweet sound of your name

You look so beautiful tonight  
Oh so beautiful in blue and white

Am I waiting for a sign  
Was that a smile for me. Oh could it be  
For a friend that's close behind

You look so beautiful tonight  
Oh so beautiful in blue and white

Look at this I'm by your side  
So warm this night in June  
So pale this burning moon  
Oh well there's just no place to hide

You look so beautiful tonight  
Oh so beautiful in black and white  
Before the night is through  
I'm not sure what I'll do.....
