What happened to the great escape

We've ended up on the merry go round

Now all we have are shadows on the wall we could've had it all

When did life get in the way Striking matches in the rain

Now their's only me and you living on this deadend avenue

Why don't we get away out of this town

Shake all those yesterdays their dragging us down

Their's nothing left around here for you and I

All those signs tell me to get away

We should just get away

What happened to the love we made

We used to give it all

When did life get in the way throwing water on the flame

Nows their's only me and you living on this deadend avenue

So why don't we get away out of this town shake all those yesterdays

Their dragging us down their's nothing left around here for you and I

All the signs tell me to get away

We should just get away why don't we get away

Out of this town shake all those yesterdays

Their dragging us down their's nothing left around
here for you and I

So why don't we get away out of this town

Their's nothing left around here for you and I

All the signs tell me to get away

We should just get away
