Your staring me right in the face,
Your something I can not erase,
I cant watch you walk away,
I wanna drift right out of space,
Can we escape this drowning phase,
Maybe we can find a way.

Now my beds so empty, I,
I cant sleep without you, I,
Just need a love transfusion.

Im so afraid to lose it all,
Wont wait to see it rise and fall,
I know its worth not letting go,
No medicine can heal the hurt that's felt,
When you get torn apart,
Oh I know its not with letting,
My heart face execution,
In the end im only human,
And I just need a love transfusion.

Im looking down a massive waste,
An empty shell a dead end case,
I don't expect its over,

I had a vision of a place,
Ive always reached for always chased,
And all I do all day is...

Now my beds so empty, I,
I cant sleep without you, I,
Just need a love transfusion.

Im so afraid to lose it all,
Wont wait to see it rise and fall,
I know its worth not letting go,
No medicine can heal the hurt that's felt,
When you get torn apart,
Oh I know its not with letting,
My heart face execution,
In the end im only human,
And I just need your love, To begin my resurrection,

[?] pure perfection
And I just need a love transfusion.
I'm so afraid to lose it all,
I won't wait to see it rise and fall,
I know it's worth not letting go.
