Natural stuff, throw away the stone, break up the brush

Man well rough woman always requesting the work

Yes she have to get the pillow

Bedroom destruction woman you rman is a killer

Have to give it up when she see me

Wicked on the trigger man is a good digger

Woman wiggling & jiggling saying you get bigger

Where have you been you jolly bad fellow

Instantly she get asthma

Who told her to unveil the arrow

Ambulance wouldn't come

They have to send the wheel barrow

Chorus

Never hesitate to set straight the matter

Big man don't have to masturbate

Because just look at big body Pam and

Sexy body Marcia

The amount of woman in the world its a Drama

Girls chasing like hot lava

Holiday coming every woman want a llama

Face look great, shape it's a blaster

Style is your motto and fashion you

Are the master

So hush baby

Chorus

Rain starts to fall, your inner nature call

You need a good soccer player to kick the football

Direct free kick, curve it around the defense

Bangarang the in the room between you and me
