[verse]

I could feel
It coming from a mile away
When I opened up the door
I saw everything that I've been waiting for, hey
Close your eyes
I don't care what other people say
Here underneath the stars
Now Jupiter and Mars don't seem so far away

[chorus]

I want you to know
You take my breath away
And it's been that way right from the start
I didn't know how to tell you
That I want to love you
With every beat of my heart
(With every beat of my heart)

[verse]

Take my hand
Don't be afraid, don't go
I want you to stay
Just relax your mind

I promise that tomorrow will be just like today

[chorus]

I want you to know
You take my breath away
And it's been that way right from the start
I didn't know how to tell you
That I want to love you
With every beat of heart
(With every beat of my heart)

[music interlude]

[chorus]

That's why I want you to know
That you take my breath away
And it's been that way right from the start

I didn't know to to tell you
That I want to love you
With every beat of my heart
(With every beat of my heart)
With every beat of my heart
