The nite is over
The DJ's about to play a slow jam
I'm waitin' about an hour
For this moment to dance with you
Do you wanna dance with me too, hey

We're hand in hand
We're cheek to cheek, shoulder to shoulder
I reach around and grab a little booty
And it feels so good
I just wanna tell you

There's no place
I'd rather be
Than here with you

There's no place
I'd rather be
Than here with you

Hmm, no need to worry
Just let the music take you over
It's startin' to feel like we're in a movie
'Cause it feels so right
Can I drive you home tonight

Hey, and I think that this could be
The beginning of a good thing
I look into your eyes and they tell me
That you feel like I do
I just wanna tell you

There's no place
I'd rather be
Than here with you

There's no place
I'd rather be
Than here with you

Now that you and I are here together
Let's make the moment last forever

Ain't no way I might be foolin' around
And oh, I know I might see you next to never
I'm glad I had this time with you tonight, tonight

There's no place
I'd rather be
Than here with you

There's no place
I'd rather be
Than here with you

There's no place
I'd rather be
Than here with you

There's no place
I'd rather be
Than here with you
