You came in

That's what my little heart was looking for

Laughter in the rain

Feeling like a fool in love again

The laughter came

When the tears stopped falling

Now all I do is just call your name

(When I say lover)

You walked in and my heart discovered

That my life would never be the same

Oh, you are my destiny

You are my one and only

You gave that joy to me

When my whole life was lonely

Angel in disguise

With your power of love

You just hypnotize

I just love the magic of your spell

How much joy we have together

Only time will tell

Every day, every night

Oh, I know it's so right
when I see your face
Only time's gonna tell
But I know you so well
Girl, my love's for real
From the first time that I saw you
I know it was forever
This mighty love between us
Will keep us together
You're the girl God sent from heaven
I'm so glad I found you
Forever, forever, forever, forever, forever, forever
I'm so glad to be around you
You are my destiny
You are my one and only
You gave that joy to me
When my whole life was lonely
It's alright, it's alright
Do it again
It's alright, it's alright
Don't let this love end
It's alright, it's alright
Do it again
It's alright, it's alright
Don't let this love end
