Finally we're alone
Turn off the telephone
This is the night
We've been waiting for so long

Only lit by candlelight
Laying by the fireside
I'm getting that feelin'
And it's comin' on so strong

I'm gonna stay with you
Play with you
I know exactly what to do
We're gonna take our time
Paradise... is waiting for you
So lay back

Lay back
Relax
Close your eyes
Let me improvise
I only wish
To please you
Over and over again

My time is in your hands
Your wish
Is my command
Tonight I'm gonna
Pleasure you
Over and over again

Every move a photograph
Feel your heart beating fast
In anticipation
Of what has yet to come, yeah

Every sound a symphony
As you give you love to me
And baby our time
Has only just begun

I'm gonna stay with you
Play with you
I know exactly what to do
We're gonna take our time
Paradise... is waiting for you
So lay back

Lay back
Relax
Close your eyes
Let me improvise
I only wish
To please you
Over and over again

My time is in your hands
Your wish
Is my command
Tonight I'm gonna
Pleasure you
Over and over again

There are many words
That I could say
Melodies
That I could play
To let you now the way I feel

I want you more than you know

Hope this feeling never ends
Let forever begin
We could be together for always

Lay back
Relax
Close your eyes
Let me improvise
I only wish
To please you
Over and over again

My time is in your hands
Your wish
Is my command
Tonight I'm gonna
Pleasure you
Over and over again
