All night long shit just ain't the same  
When you slide through, whoa  
I get distracted every time you in my view, yeah  
Plus I hear you kinda single right now boo, true  
And I got a perfect spot for a tattoo, oh

I get ya name more than once if I have to, yeah  
Me and you up at a classic then buy you  
'Cause I got a few places you can fly to  
Bring ya partners 'cause you know, I'm bringin' my  
crew, yeah

Girl, don't you walk on by?  
We're not leavin' one more time  
Shorty's got her back to me  
Show me what you got for me

Watch you move from side to side  
Lick your lips then close your eyes  
Like something from a fantasy  
Good for you and good for me, girl

So we can talk about the things you want  
Or we can talk about the things you like  
Girl, I don't just talk to hear my lines  
You've heard it all a thousand times, girl

And we can talk about taking it slow  
And we can talk about taking our time  
Girl, how can I get you in my ride?  
Who's gonna take you home tonight?

Baby let me love you  
All night long, all night long  
Baby let me please you  
All night long, all night long

We can take a ride in my ride  
We can get it on outside  
Hit it of like one, two, three  
The moon and stars is all we need

Then we can take it back to my crib  
We don't have to say that we did  
No one knows that we just met  
What you see is what you get

So we can talk about the things you want  
Or we can talk about the things you like  
Girl I don't just talk to hear my lines  
You've heard it all a thousand times girl

And we can talk about taking it slow  
And we can talk about taking our time  
Girl, how can I get you in my ride?  
Who's gonna take you home tonight?

Baby let me love you  
All night long, all night long  
Baby let me please you  
All night long, all night long

Oh baby, whenever you say, we can be out  
I'm not in a hurry ma, but we can go now  
There's so many ways we can get down  
I'm gonna give all the lovin' to ya, oh girl

I wanna be your stability, physically finance and  
mentally  
If willin', I'll be fulfilling anything you reveal to me  
Like ya fantasies, ya dream, peaches and cream  
You name it, you pick, I lick that's the thing

Time don't mean a damn thing in this case  
So unplug the clocks and close the drapes  
I got it all planned out, me and you goin'  
Until we both scream ouch, we both pass out

So we can talk about the things you want  
Or we can talk about the things you like  
Girl I don't just talk to hear my lines  
You've heard it all a thousand times girl

And we can talk about taking it slow  
And we can talk about taking our time  
Girl, how can I get you in my ride?  
Who's gonna take you home tonight?

Baby, let me love you  
All night long, all night long  
Baby let me please you  
All night long, all night long

Baby let me love you, we can be out  
All night long, hurry ma  
But we can go now, all night long  
Baby let me please you, we can get down  
All night long, all night long
