With The Tremeloes

[CHORUS]

Someone (loves you)
Someone (loves you)
Someone who really loves you
(Someone)
When someone really loves you
(Someone)
That's when your life begins

Once I was loved by no one
No one depended on me
I thought that I was truly happy
But, oh, how wrong can you be

[Repeat CHORUS]

A heart can be easily broken
A heart can even stand still
A heart can be easily broken
But I know that mine never will

Once all the stars were shining
Now it's so easy to see
Once all the stars were shining
But now they're shining for me

[Repeat CHORUS]

That's when your life begins
That's when your life begins
