Diamonds and pearls, black silk stockings
In her own world when she's rockin'
She don't hang out with anyone else in the crowd
Stiletto heels on the dance floor
Does what she feels as the crowd roars
She doesn't care what anyone else thinks of her
My baby only cares for me
We're a ship in the night
All alone on the sea
My baby only cares for me
Give her a wink, exchange glances
She doesn't give second chances
Hey loverboy, you ain't got nothing she needs
Barons and earls would love to date her
Better you should know sooner than later

Hey just one dance and you'll be caught in her trance
My baby only cares for me
We're a ship in the night
All alone on the sea
My baby only cares for me
Silently waiting for love to explode on the scene
Secretly wishing for someone to sweep her away
What can I say?
It could happen.
Black caviar, champagne cocktails
Come as you are if all else fails
Hey here's the thing, she's got the world on a string
My baby only cares for me
We're a ship in the night
All alone on the sea
My baby only cares for me
