"The rain washed everything away"

Visit "[The rain washed everything away](#)" on MotoLyrics.com

Darling, we've had our problems in the past
But now the rain's washed everything away
We've been through this
Through all the tears and pain
I've done so many things that I just can't explain

But now the rain washed everything away
Just as the sun lights up a cloudy day
And I hope you've come on back to stay
Cause the rain washed everything away

We've come this far
Too far to turn back now
I said so many times I'd make it work somehow
Oh, yes I did

But now the rain washed everything away
Just as the sun lights up a cloudy day
And I just hope you've come on back to stay
Cause the rain washed everything away

The door's already closed
Hold on with all your might
Those rainy days are gone
The future's clear and bright, oh yes it is hey !

But now the rain washed everything away
Just as the sun lights up a cloudy day
And I know you've come on back to stay
Cause the rain washed everything away

Oh wash it away
