Concert, concert tonite  
Dit dit dit dit dit dit dit  
Concert, concert tonite

The music's comin' at you  
You know it's worth the wait  
You'll lose those tired-of-workin' blues  
( ? ? ? )

Everybody in the human race  
Everybody loves to rock the place  
Let's get smokin'  
Yeah prime time concert tonite

Everybody wants to feel the groove  
Everybody wants their feet to move  
Let's get rockin' now  
Good time rockin' tonite

You've got your girl beside you  
She looks like love tonight  
But if your soul is hungry  
Rock feeds your appetite

Everybody wants the beat to go on  
Everybody needs to learn the song  
Let's make music now  
Let's make music tonite

Everybody set your spirit free  
Everybody feel as good as me  
Enjoy the concert as we go get out tonight  
Everybody gotta hang loose  
Everybody needs a good excuse  
We're in concert so let's get crazy tonight

There's gonna be a concert tonite  
There's gonna be a good time tonight  
Put on your 3-d glasses tonight  
We're gonna see a magic show tonight  
There's sorcery and music tonight

I'm doin' it in concert tonight  
Now everybody feels good tonight  
And everybody looks good tonight  
So turn on your love lights tonight  
We're doin' it in stereo tonight  
I'm wired up to you guys tonight  
We'll conjure up a concert tonight

A song moves like an arrow  
It's aim is always true  
It don't shoot like a shadow  
Let it just fly with you ( ? ? ? )

Everybody love the rockin' band  
Everybody now clap your hands  
'cause we're violent now  
Rockin' violent tonight  
Rock rock rock rock rockin' tonight  
Let the rhythm get in to your feet  
Let it move you right outa your seat  
Oh we're jumpin' now  
Concert jumpin' tonight

Come, come on down  
Everybody needs to put it behind  
Everybody come and give me a sign  
Lord have mercy on this our concert tonight  
Lord have mercy tonight  
Everybody needs to have some fun  
Leave the concert so we can shine  
Let's start crankin' now  
Let's keep rockin' tonight

Woo woo hooo  
Wooo wooo hooo  
Wooo wooo wooo hooo  
Wooo wooo hooo
