New executive music, bmi

You touch my heart

You touch my soul

When I heard you cryin? br> you broke my heart

Broke it in two

How could I have left you alone

A silly quarrel

That's what we had

Then I heard you cryin? br> you broke my heart

Broke it in two

How could I have left you alone

Like that to cry

She seemed so fragile

I really should have cared

And that sent her cryin? br> you broke my heart

Broke it in two

How could I have left you alone

Like that to cry
