ASCAP

Producer: Brian Wilson/Jeff Lynne

Recorded and mixed by Bill Botrell at Larabee and  
Smoketree Ranch

Brian Wilson/Jeff Lynne

Let it shine oh let it shine  
Let it shine oh let it shine  
Let it shine oh let it shine  
Let it shine oh let it shine

Shadows fall  
The ocean calls to me  
The night is still  
She's where I wanna be  
The stars all send  
Their silver light to me  
Forever shine  
On me eternally

I couldn't think of anything  
That gives me more than what you bring  
The color of an endless dream  
Let it shine  
Let it shine  
Whoaah-oh

There comes a burning fire  
It fills me with desire  
And all my troubles disappear  
Feels like it's goin' through me  
Whatever you do to me  
Your words are magic to my ears  
Whoaah-oh  
Let it shine

A flame that grows  
And burns so deep in me  
Somebody cries  
For all the world to see  
Another time

There will be ecstasy  
Another place  
You will be next to me

Of all the lives that I've been through  
I never really thought it was true  
That all I ever needed was you  
Let it shine  
Let it shine

Let it shine oh let it shine  
Let it shine oh let it shine  
Let it shine oh let it shine  
Let it shine oh let it shine

There comes a burning fire  
It fills me with desire  
And all my troubles disappear  
Feels like it's goin' through me  
Whatever you do to me  
Your words are magic to my ears  
Whoaah-oh  
Let it shine

There comes a burning fire  
It fills me with desire  
And all my troubles disappear  
Feels like it's goin' through me  
Whatever you do to me  
Your words are magic to my ears  
Whoaah-oh
