The sound caused by blocking
The music of strength
Depends on it's fact
There's a connection
Between harmony and numbers
There is a hidden sense

(The entual (eventual?) lafinal)
Distributed generation
2 to 1
That dropped to 5th
Then 3 to 2
That dropped to 4th
Then 4th to 3
(Condense/connects? Rest En da hole down?
Inigerate...)

See the governing forces in the cosmos
As in this song they can be found
They all can be thought of as a giant symphony
You represent the sounds

See the governing forces in the cosmos
As in this song they can be found
They all can be thought of as a giant symphony
You represent the sounds

(All in down the world?
By the daesy? You can't limit it?
All in down the world?
By the daesy? You can't limit it?)

You cannot hear humanity
Yet you're the sound of symphony
You cannot hear humanity
Yet you're the sound of symphony

Have you lost your ears?
Rediscover lost (confidence-contunance-comptulance-
continents?)
Be like a wondering bird

With an entrapped heart
You may remember
The interconnectedness

Have you lost your sight?
Rediscover lost (confidence-contunance-comptulance-
continents?)
Be like an enquiring child
With an innocent mind
You may remember

See the governing forces in the cosmos
As in this song they can be found
They all can be thought of as a giant symphony
You represent the sounds

See the governing forces in the cosmos
As in this song they can be found
They all can be thought of as a giant symphony
You represent the sounds
