Car bombs and molitov cocktails
You can't stop us (can't stop us)
Headlights and no goodbye's, Tonight (you lied)
Bright eyes and tongue-tied lies
You can't stop us (can't stop us)
Come back here one more time (come back here one
more time)

I'm so far from home (so far from home)
But you should have known (you should have known)

Come on, come on, come on, come on right now
Right here, right here, right here, right here right now
And you should have known
Come on, come on, come on, come on right now
Right here, right here, right here, right here right now
And you should have known

Dashboard has low fuel lights, I keep driving (keep
driving)
Bruised knuckles mean broken faces
Can't break us, Can't make us
Fake girls with too much make-up
Don't hate us, they make us
So stop and make up your mind
Don't stop, Just make up your mind

I'm so far from home (so far from home)
But you should have known (you should have known)

Come on, come on, come on, come on right now
Right here, right here, right here, right here right now
And you should have known
Come on, come on, come on, come on right now
Right here, right here, right here, right here right now
And you should have known

You said everything too much, too often (x12)
