Hey!, I just want you to know  
I'm into you, I like you, I love you, lets elope  
We'll be crazy, getting into some trouble  
But it don't matter when we're in it together  
We're in it together  
And I'll love you forever 'til always  
We will never end

And on your signal  
We'll set sail  
If we're gonna do this  
We're gonna do it right  
If we get through this  
You'll be my knight  
If we can do this  
You'll be my light

Be my bodyguard  
We'll never be apa-a-art

I wanna travel the world  
I wanna travel the world  
I wanna travel the wo-o-orld, with you

Take me to the Islands  
Of the Caribbean  
Go to Barbados  
Love the sight-seein'

Hide away  
I ain't gon' wait  
We're just one of those lost kids  
Exploring the city  
Give out some pretty pity

I wanna travel the world  
I wanna travel the world  
I wanna travel the wo-o-orld, with you

On your signal  
We'll set sail

If we're gonna do this  
We're gonna do it right  
If we get through this  
You'll be my knight  
If we can do this  
You'll be my light  
Be my bodyguard  
We'll never be apa-a-art

Tour on the outskirts of town  
Get a job  
Live like emperors of the with a crown  
Turn that frown upside down  
When you're with us, there's no paying attention  
When you're with us, we set sail, wild and free

Lucid dreaming  
Loud noises we're screaming  
This city is bad ass  
Somewhere, where it doesn't hardly shine but mildly  
rains  
The blue gets darker running down our veins  
Yeah, yeah, yeah, yeah, yeah, yeah, yeah  
Uh-uh-uh-uh-oh  
The blue gets darker running down our veins  
From all that excitement

I wanna travel the world  
I wanna travel the world  
I wanna travel the wo-o-orld, with you

La, la, la, la, la, la, (travel the world)  
La, la, la, la, la, la, (travel the world)  
La, la, la, la, la, la, (travel the world)  
La, la, la, la, la, la, (travel the wo-o-o-rld)  
Uh-uh-oh, ohh ye-e-e-ah (Hey, yeah, travel it with you! )

Take me to the Islands  
Of the Caribbean  
Go to Barbados  
Love the sight-seein'

Hide away  
I ain't gon' wait  
We're just one of those lost kids  
Exploring the city  
Give out some pretty pity

I wanna travel the world  
I wanna travel the world  
I wanna travel the wo-o-orld, with you

I wanna travel the world  
I wanna travel the world  
I wanna travel the wo-o-orld, with you

On your signal  
We'll set sail  
If we're gonna do this  
We're gonna do it right  
If we get through this  
You'll be my knight  
If we can do this  
You'll be my light  
Be my bodyguard  
We'll never be apa-a-art

We're just one of those lost kids  
Exploring the city  
Give out some pretty pity  
We're just one of those lost kids  
Exploring the city  
Give out some pretty pity  
We're just one of those people  
One of those, couples  
One of them, one of them

La, la, la, la, la, la,  
La, la, la, la, la, la,  
La, la, la, la, la, la,  
Uh-uh-oh, oh ye-e-e-ah

And we're tired, we're wired  
We're broken to pieces  
From all our releases  
We took up the big city, big air  
Superstars, livin' the high life  
We took up the stars, the big city, the big world  
Gracefully, romantically eloping

Oh, ohh, oh, ohh, oh, ohh, oh, ohh, oh, ohh, hooo
