crowds committing suicides
manipulated by master minds
electric storms at the night skies
catastrophies, wars, genocides
super viruses, storms, death rites
murders, epidemics, street fights
millennium serpent's fatal bite
and finally; everybody dies
millennium serpent's fatal bite
same snake that dwelt in paradise
millennium serpent's fatal bite
same snake made man to sin
millennium serpent's fatal bite
arriving fire from the skies
millennium serpent's fatal bite
hell on earth - everybody dies
