"Television"

Visit "[Television](#)" on MotoLyrics.com

And you believe anything your lyrics tell you
And you believe anything your favorite singer sings
You
But I've been listening

And you believe everything you see on tv
And try to live your life like a movie
But I've been watching

I saw fire burning buildings
The poor taking money from the willing
When they ask you say you like it cause it's thrilling
I always wished that you would listen
I blame the television

So why won't you take it from me

I saw fire burning buildings
The poor taking money from the willing
When they ask you say you like it cause it's thrilling
I always wished that you would listen
I blame the television

You can fly
I will never die
You can do anything you want to if you try
I am a robot and you're an alien
I've been lying to you but you believed it
