### "Without You"

Visit "[Without You](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I can make a mess of a good thing.  
Try to think it through; think of everything.  
I'll never get engaged with a mood ring.  
And that's why I need you.

I'll never look for love; it will find me.  
Take me surprise; it will blind me.  
I never know, it could be right behind me  
And that's why I need you.  
Oh, darling, I need you.

She don't know what to do.  
She won't call me.  
I'll never know everything,  
But I know you love me.  
And I will never lose to you.  
I can't do a thing without you.  
And I will never lose to you.  
I can't do a thing without you.

Well I can fight a war like a veteran,  
Give you a little more like a gentleman.  
Learning from before, I will be a better man.  
And I know I need you.

I know I need a heart like the one you have.  
I know I need a love like my Mom and Dad's.  
I'll try to stay cool when things get bad.  
And that's why I have you.  
Oh, darling I have you.

She don't know what to do.  
She won't call me.  
I'll never know everything,  
But I know you love me.  
And I will never lose to you.  
I can't do a thing without you.  
And I will never lose to you.  
I can't do a thing without you.

No matter where we are,

No matter where we are,  
You know everything about me.

She don't know what to do.  
She won't call me.  
I'll never know everything,  
But I know you love me.

And I will never lose to you.  
I can't do a thing without you.  
You know I'll never lose to you.  
I can't do a thing without you.  
I can't do a thing without you.
