(G rard Bourgeois/Jean-Max Rivi re) adaptation  
anglaise Eileen Goldsen

Mister Sun, stay a while, summer is here you've made  
me smile.

When your rays come to me, I feel warm inside stay  
with me.

Mister Sun, you have ways of putting me into a dizz.  
When you shine on the sea, you turn into gold stay with  
me.

When your rays kiss my heart... All my heart sighs.  
All alone on the sand I'll close my eyes.

Mister Sun, you're so far, please help me find my  
wishing star.  
Only you understand how lonely I am on the sand.

You take me far away from noisy crowds.  
When I just watch your play, I'm on the clouds.

Mister Sun, stay a while, don't go away, please stay  
with me.  
Please stay with me, please stay with me.
