"Far Away"

Visit "[Far Away](#)" on MotoLyrics.com

You're the kind I leave behind
All you desire is what you take from me
You don't know it
I wish I could be myself
I wish you would try to understand what you mean to
me
You used to be so close now you're so far away
What we used to be I guess you didn't care to stay
I don't care you're the kind I leave behind
All you desire is what you want from me
You don't notice I wish you would be yourself

I wish I could try to understand why you do this
You used to be so close now you're so far away
What we used to be I guess you didn't care to stay
I don't care you can't stop me
Why are you so far away
You used to be so close now your so far away
What we used to be I guess you didn't care to stay
I don't care you can't stop me
Why are you so far away
