(Miss you like crazy)

On my first day on the beach  
I saw you covered in sunbeams  
I didn't know your name  
but you looked as cool as icecream  
I said I need to see you now  
just listen to my heartbeat  
We took a ride in your car  
and then we kissed in the backseat

course:

The nights have been wild  
days have been lazy  
For the past three or four weeks  
I'm gonna  
miss you like crazy  
cause it's the last day on the beach

Miss you like crazy  
miss you like crazy

I've tasted the salt in your hair  
and your lips are like honey  
if I wasted my time and my share  
it was worth all my money

I should have known right from the start  
you're still with me when we're apart

Course:

The nights have been wild  
days have been lazy  
For the past three or four weeks  
I'm gonna  
miss you like crazy  
cause it's the last day on the beach

You wouldn't let go  
when you embraced me  
but you were still

way out of reach

I'm gonna  
miss you like crazy  
cause it's the last day on the beach

Course:  
The nights have been wild  
days have been lazy  
for the past three or four weeks  
I'm gonna  
miss you like crazy  
cause it's the last day on the beach

Miss you like crazy  
miss you like crazy  
miss you like crazy  
miss you like crazy
