I'm only human, what a lousy excuse  
but we're playing a game now, I'm meant to loose  
consider me dangerous, consider us a crime  
when I fall asleep now, I can't close my eyes

chorus:

wide awake, I'm wide awake and I say  
I don't know how, I don't know when (repeat 1 more  
time)

it's you versus me now, just the two of us  
hard to tell the difference between hatred and lost  
we can't stay together, we can't stay alone  
a night full of pleasure, to scream and moan

chorus

repeat

chorus, repeats until fade
