[Intro]

Girl was so fine, fine, fine  
Me love the way she wine, wine, wine  
Thats why me gotta make her mine, mine, mine, mine  
Me want bit of her time  
Give me some of your time

[Verse 1]

Bad Girl in full effect  
Me give her much respect  
Me see her silhouette  
And me damn near broke my neck  
On everything me know  
On her, everything a yes  
Excuse a rudeboy but she the finest in this b\*tch  
Pardon my naughty language  
Just speaking her body language  
She start moving like a snake  
I start screaming like Bigga Rankin  
I hope she ain't taken, I don't think i could take it  
Movado got her winding like Moscato which she  
drinking

She move her hips like she from the same place  
Rihanna is (Barbados)  
Open her lips sound like she kin to Nicki's mama nem  
(Ahh Trinidad)  
Or she might just be from Kingston like Sean and nem  
(Jamaica)  
Girl was all that like her got roots tied to all of them  
Exactly what me call a ten

[Hook]

Girl was so fine, fine, fine  
Me love the way she wine, wine, wine  
Thats why me gotta make her mine, mine, mine, mine  
Me want bit of her time  
Give me some of your time  
Wait I don't even know her name  
Me not even ask her her name  
I don't even know, know, know (know, know, know,  
know)

Me not even know, know, know, (know, know, know,  
know)

Her name

[Verse 2]

Damn it is a shame

She all up on me brain and me not even know her name

But I know her body bang bang bang

And she hot as flame flame flames

Drop down with the wine bout blew my mind

Girls off the chain chain chain

So it's like get it girl, get it girl

Represent yo city girl

Might not know her name but know she represents for  
pretty girls

Drop dead gorgeous, All of that

Beauty's her name, Me'll call her that

She saw me apparent she was staring where the ballers  
at

From the same place Rihanna is (Barbados)

Open her lips sound like she kin to Nicki's Mama nem  
(Ahh Trinidad)

Or she might just be from Kingston like Sean and nem  
(Jamaica)

Girl was all that like her got roots tied to all of them  
Exactly what me call a ten
