"Good Good Boys"

Visit "[Good Good Boys](#)" on MotoLyrics.com

The aged boys and the deceased
Are asking now for their reprieve
They're building things with wood and wire
See them now before they expire

Gotta listen
No, you really gotta listen
Gotta listen
You know you really gotta listen

We need some good good boys
Some reliable boys
Need some good good boys
We need some good good boys
Some reliable boys
Need some good good boys

They're working now, not with brick or bale
But on the diatonic scale
Between harmony and discord
There is a place so come aboard

Gotta listen
All you gotta do is listen
Gotta listen
All you gotta do is listen

We need some good good boys
Some reliable boys
Need some good good boys
We need some good good boys
Some reliable boys
Need some good good boys
