Hope has gone  
Hope has gone  
Being apart is now the place where we belong  
Oh we tried  
Oh we tried  
Our only future now is living separate lives

So what good is love  
When it goes and takes it's toll on us  
Is anybody out there  
Is anybody whatching us

Hope you know  
I hope you know  
In spite of everything this world has put us through  
I loved you

What good is love  
When it goes and takes it's toll on us  
Is anybody out there  
Is anybody whatching us  
Can anybody help us  
Cos you could fight an army with just one son

Hope you know  
I hope you know  
In spite of everything this world has put us through  
I loved you

And still do
