All out of the class there's a window i can look
And out there i see you
Full of hope and full of joy i would never fall apart
I like to know do you feel like me
I wanna hold you right now

Chorus:

I don't need another but i need you so much
i like to hold you every day and night

i don't want another boy
i just need you
so much

an empty heart and empty street nowhere i have to go
but you are there for me
i love you

and empty house an empty way forver you and me
i love you
so much

Chorus
chorus to fade out
