Love is war  
What are we in it for?  
Why do we play the game?  
Why are we keeping score?  
You and I,  
you know that we're born to fight  
there's so many times before,  
know I should be sure,  
love is war

Wash my hands, (wash my hands)  
trying to understand (trying to understand)  
after all the pain (after all the pain)  
we'll take another chance (take another chance)  
I just wanna close my eyes (close my eyes)  
forget the reasons why  
lying here on the floor (lying here on the floor)  
all I want is more (all i want is more)  
love is war

We hurt the ones we love  
but still don't let them go  
we hold on to the words  
you and I would know  
all this tears are in my eyes that's where they'll stay  
It's just easier that way

Then I turn (then i turn)  
Say that I'm not the one (say that I'm not he one)  
I don't feel the sting (I don't feel the sting)  
I don't feel anything (I don't feel anything)  
I've got numb  
from all the damage done  
but I'm lying here on the floor (lying here on the floor)  
so many times before (so many times before)  
love is war  
lying here on the floor  
all I want is more  
love is war.
