Baby

I could be your sweet baby
When things get crazy
Be sure you come and save me
(Save me)
With this fast car
I can really get far
And don't break my heart
Let's make out
(Let's make out, let's make out)

You can come take me away
There's no pressure, play all day
Grip me tight and don't let go
Mmm papa, love you
Mmm papa, love you
You love it when I'm freakin' out
Things get rough and there's no doubt
You will always be there for me

Mmm papa, love you
Mmm papa, love you

Stuck in
The middle of it all
Too many people around me
Can you hear me call?
I look this way
When you're not there
If you don't mind
My soul out there

Mmm papa
Mmm papa, mmm papa

You can come take me away
There's no pressure, play all day
Grip me tight and don't let go
Mmm papa, love you
Mmm papa, love you
You love it when I'm freakin' out
Things get rough and there's no doubt

You will always be there for me

Mmm papa, love you
Mmm papa, love you

Mmm papa
Mmm papa, mmm papi
Mmm papi
Mmm papi, ooh papi
Ooh lavi
Ooh lavi, ooh papi
Ow

You will always be there for me
You will always be there for me

Love it when I'm freakin' out
Things get rough and there's no doubt
Love it when I'm freakin' out
Things get rough and there's no doubt

Mmm papa, love you
Mmm papa, love you

You can come take me away
There's no pressure, play all day
Grip me tight and don't let go
Mmm papa, love you
Mmm papa, love you
You love it when I'm freakin' out
Things get rough and there's no doubt
You will always be there for me

Mmm papa, love you
Mmm papa, love you

Now see
I'm Mami
And that makes you Papi
And that makes us Lavi
Ow!

Mmm papa
Mmm papa, mmm papa
Mmm papa
Mmm papa, mmm papa
Mmm papa
Mmm papa, mmm papa
Ooh
