We're no so different you and me
Cos we both cherish ??? above sanities
And everybody's got some freaky tendencies
Hidden or admit cos we all got needs.

And I make no apologies
I'm in to phonography
And I like my bluetooth
Buttons coming loose
I need my handsfree
Then I let my mind roam
Playing with my ringtone
He got service I got service baby we could talk all night

Go

Let's talk about biology
Make believe you're next to me
Phonography phonography
Talk that sexy talk to me.

Better make sure that the line is clean
Keep it confidential you and me
Phonography phonography
Baby, talking call it's phonography
Hey!

I can follow all your commands
But there will be no talk of adding you to my plans
I'll keep you connected long as you understand
That's how we should keep it Mr. Telephone Man.

And I make no apologies
I'm in to phonography
And I like my bluetooth
Buttons coming loose
I need my handsfree
Then I let my mind roam
Playing with my ringtone
He got service I got service baby we could talk all night

Go.

Let's talk about biology
Make believe you're next to me
Phonography phonography
Talk that sexy talk to me.

Better make sure that the line is clean
Keep it confidential you and me
Phonography phonography
Baby, talking call it's phonography
Hey!

Baby if you're not alone take
Me off speakerphone.
What I'm 'bout to say right here's
just for your ears to hear.
If you need to hit me back
Hit me back
I got a star sixty-nine
???
???

Go.

Let's talk about biology
Make believe you're next to me
Phonography phonography
Talk that sexy talk to me.

Better make sure that the line is clean
Keep it confidential you and me
Phonography phonography
Baby, talking call it's phonography
Hey!

(Phonography)
(Phonography)

Go.
