Girl I ain't playin' around but you stopped the show
You didn't realize, you're just doin' your thing
I start imagining you, taking off your clothes
I wanna feel your skin on my skin

Dance with me tonight, girl you're racin' my
temperature
When I see that look in your eyes

Girl you're makin' me crazy, hands all over my body
Touching me while I'm touching you
Don't you know
You're driving me crazy, girl you're looking so sexy
You on me and then me on you, me on you

I think we better slow down, just cool it
I'm going crazy 'cause I can't get you off my mind
You got me thinking and I can't stop it
Your sexy body on top of mine, boy

Move with me tonight, let me see ya when you work that
thing
When I see that look in your eyes

Girl you're makin' me crazy, hands all over my body
Touching me while I'm touching you
Don't you know
You're driving me crazy, girl you're looking so sexy
You on me and then me on you, me on you
