Dirty Girl

Girl you're buggin' me Sure enough you're always busy
pushing me

Well you don't wanna treat me like that

Waited patiently Yet still you're playin' every game
deceptively

But this time girl the ice gonna crack

You take my trust and you throw it away

Take the money I should have been paid

Makin' fools of the both of us Things getting dangerous

And I don't wanna give no more I think I'm gonna...

Chorus:

Rip back on your act, watch your back,

I'm puttin' you right, don't think I'm gonna

Take that, cold attack, where you at?

It's happenin' tonight, I wanna be Sure you're in the
frame

Know the same 'bout where this gonna lead

Cause I ain't gonna want somebody else's dirty girl on
me (yeah)

How come all your friends deny your alibis?

They ain't where you sayin' they'd been

Don't apologize You rolled the dice and lost it girl

Take my advice Get out before I find you again

Chorus:

You damn right I'm serious You double crossed me and
I've had enough

Of your lies, in my eyes You ain't worth the dirt in your
bed, baby

I don't wanna make a fuss Get yourself packed baby,
don't discuss

You know you're, to blame for, me being this close to
the edge

Chorus:
