You're the one so fine - You could blow my
mind - can I get close to you - baby just be
with you - take my hand why don't you
dance with me - this could be one of your
fantasies - this is a perfect plan - a vision of
just you and me

I remember all the time - you're the one that I
am thinking of - don't break me off - cause I
got something special on my mind - I'm not
ready to explain - cause you're driving me
insane - so is it your or me

It's Just the two of us - we could make it
dance - it's just the two of us - it's not about
romance - it's just the two of us - i will make
you scream - cause it's all about you and me
so dance with me - so you can set your body
free with me

Let me take you to - thinks you never do - let
me get close to you - shorty don't please me
to - baby i will take you through the night
just to make your body fell alright - this is
our destiny - a vision of just you and me

I remember all the time - you're the one that I
am thinking of - don't break me off - cause I
got something special on my mind - I'm not
ready to explain - cause you're driving me
insane - so is it your or me

It's Just the two of us - we could make it
dance - it's just the two of us - it's not about

romance - it's just the two of us - i will make
you scream - cause it's all about you and me
so dance with me - so you can set your body
free with me
