Too many lies my boy that came out of you  
mouth - plus all of the mac make up that I  
found in your house - what can you say to  
me, words don't mean a thing - and all  
these promises about money, cars and rings

was I just another girl for you tell me  
(won't you tell me) - or just another fool  
that cooked for you (won't you tell me) -  
was she better than me, better tell me the  
truth

If you wanna have your ring back, let me  
know, let me know - if you wanna have your  
car back, let me know, let me know - if you  
wanna have your roolly back, let me know

All these women calling your crib while I  
was talking to you - this chick was up in  
your mix, but you're not a player cause I  
was playin' you - and while you were cheating I  
was cheating you

RAP:

I want the house the keys, watch and  
bentelys - than it's time to go, yes it's time to  
leave - I say you knew I was pimpin from the  
very start - but you said that you could deal  
with it and gave me your heart - but now you  
acting like you didn't know that I was the  
man you acting like I didn't put that rock in  
your hands - and you acting like I didn't  
give you cars to drive - now you wanna  
front me, you must be out of your mind - I'm  
hustler so I got no ball, but if I change than  
maybe I'll give you a call - but in the mean-  
time and in-between time - you do your thing  
and I'll do mine.
