From the beginnin', you've been winnin'
I've been givin' in to you
I'm at the point of no return, I'm burnin'
But it's time you learned a thing or 2
You're pushin' a good thing
You're pushin' a good thing
You're pushin' a good thing too far

It's like a slap across my face
Or cheek & every place disgracin' me
Now everybody's talkin' 'bout it
They say I should walk right out on you, they see
You're pushin' a good thing
You're pushin' a good thing
You're pushin' a good thing too far

(Low so feelin' you're mad, come on & kiss me)
Better listen good to what I'm sayin'
No more kissin' till you stop playin' games
(Baby I love you)
If you do, then don't you abuse me
Or you will lose me, ah

(Instrumental)
You're pushin' a good thing
You're pushin' a good thing
You're pushin' a good thing too far
So keep on pushin', come on, come on come on
Keep on pushin', oh I want you to keep pushin'
Come on... & fade
